

Welcome to CircularBio Innovations and CircularBio Innovations Hackathon!

CircularBio Innovations 5 ECTS, 21.3. - 15.5.2022

CircularBio Innovations Hackathon 2 ECTS, 4.4. - 11.4.2022

Place: Online | Registration by 18.3.2022 | Contact: Kaija Saramäki, kaija.saramaki@karelia.fi

HOW?

CircularBio Innovations online course (5 ECTS) consists of lectures, participation in the CircularBio Innovations Hackathon and group work. The lecture topics include circular economy, service design, commercialisation, innovations and more.

The Hackathon is an eight-day event with lectures, coaching and group work at 15 – 18 (EEST), also during the weekend. You will receive coaching and guidance throughout the process from working life partners and staff members from the organising universities and partner universities.

CircularBio Innovations Hackathon course (2 ECTS) consists of only the Hackathon part implemented 4.4. – 11.4.2022, also during the weekend.

FOR WHO?

The training is intended for students from any discipline that are interested in cooperating and developing bio- and circular economy in their respective fields.

WHY?

After the course you will be able to innovate, develop and discover solutions to the company's bio- and circular economy challenges in multidisciplinary groups and utilise the tools of bio- and circular economy development and methods as part of the innovation process. You will also have basic understanding of service/product design and commercialisation.
