

# Welcome to CircularBio Innovations and CircularBio Innovations Hackathon!

**CircularBio Innovations 5 ECTS, 21.3. - 15.5.2022**

**CircularBio Innovations Hackathon 2 ECTS, 4.4. - 11.4.2022**

**Place: Online | Registration by 18.3.2022 | Contact: Kaija Saramäki, [kaija.saramaki@karelia.fi](mailto:kaija.saramaki@karelia.fi)**

## HOW?

The CircularBio Innovations course (5 ECTS) consists of lectures, participation in the CircularBio Innovations Hackathon and group work. The lecture topics include circular economy, service design, commercialisation, innovations and more.

The Hackathon part of the course is implemented as an eight-day event, with lectures, coaching and group work between 15 and 18 (EEST), also during the weekend. You will receive coaching and guidance throughout the process from our working life partners and staff members from the organising universities and our partner universities.

The CircularBio Innovations Hackathon course (2 ECTS) consists of the Hackathon part only. The Hackathon is implemented 4.4. - 11.4.2022, also during the weekend.

## FOR WHOM?

The training is intended for students from any discipline that are interested in cooperating and developing the bio- and circular economy in their respective fields.

## WHY?

After the course, you will be able to innovate, develop and discover solutions to the company's bio- and circular economy challenges in multidisciplinary groups and utilise the tools of bio- and circular economy development and methods as part of the innovation process. After the CircularBio Innovations course you will also have a basic understanding of service/product design and commercialisation.

Registrations by 18.3.2022:
